

Photos that outshine reality

Fujifilm presents: Fujicolor Crystal Archive Digital Paper Type DPII, exclusively created for professional use.

This silver halide colour paper is specially designed for professional use. It offers the widest colour gamut, maximum density for deep blacks and excellent colour saturation.

What you'll love about it: As a professional photographer or artist, you demand professional results. Fujicolor Crystal Archive Digital Paper Type DPII ticks all the right boxes: photo shoots come to life in bold colours and expressive vibrancy, art exhibitions become crowd-pullers. Reality fades beside it – your pictures outshine reality.
