

WHAT IS DEBOSSING?

Debossing creates an indentation in the material, achieving an effect opposite to embossing. The metal die is stamped on to the material to create a depressed area.

Debossing will not leave a mark on the other side of the stock if a thicker paper is used. It can be either standard (no colour foil added) or you can personalise it with a colour foil.

WHERE CAN I USE DEBOSSING?

You can deboss you text in our product's covers. - front cover of the product - if the material allows it. The number of characters per line depends on the product's format.

HOW TO COUNT THE NUMBER OF CHARACTERS?

You should include all characters in your text, as well as spaces in between words.

In the example given, you have 11 characters:

EVA & PETER

AVAILABLE FOILS

Debossing can also contain a coloured foil. This process is nothing more than applying a thermal transference of the pigment into the material's surface.

At Koy Lab, we have 14 available colours you can use together with your embossing characters, regardless if these are personalised or predefined.

CUSTOM DEBOSSING

Do you want your studio logo debossed in your products? No problem!

You can send us your design and we will make a personalised stamp just for you. It will be available to use in your future orders as well. Koy Lab will make and store all your customised stamps, for whenever needed!

You can send us your own design file, with the following characteristics:

- Jpeg files (lines at 100% black), white background;
- PDF file (lines at 100% black);
- Vector .ai or .eps (lines at 100% black) with white background;
- All fonts need to be converted into lines.

NOTE: Please ensure that the lines have at least 1 mm thickness. This is due to the process's nature, which may result in unwanted results lines too thin.

IMPORTANT NOTE

- The debossed text will be exactly the one you write, all in uppercase letters;
- You should always make sure your characters are available for debossing;
- The number of characters is 15 per line (max);
- In case of doubt, you should always confirm the characters and text length with our Customer Care team, before submitting your order;
- It will not always be possible to include the same number of characters in the parent copies, for space reasons;
- The selection of coloured foil may be requested for reading purposes in certain materials, like:
 - Fabrik Materials: FK 606 / 607 / 608 / 609 / 610;
 - Basik Materials: BK-104 / 102 / 176 / 177 / 178
