## MODA FRAMED ACRYLIC

A 3mm HD Acrylic is inset into a precision cut aluminium frame with a small stepped rebate for a sophisticated finish. For a softer refined finish, this frame is available with 8 real wood veneers providing sleek slimline style that cannot be matched by traditional wooden frames.

- 3mm Crystal clear plexiglas
- Slim front 5mm and 35mm depth
- Frames available in 12 colours which 8 finishes have real wood veneers
- Velvet lined backing for a luxurious feel
- Hi-definition 12 colour printing
- Certified for 100+ years
- Supplied in a presentation box
- Bespoke sizes up to 3m in length
- Production time: 7-10 working days

## TRAY FRAMED HD ACRYLIC

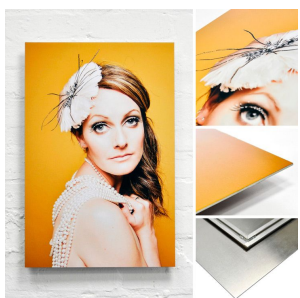

Our HD Acrylic is inset into a custom made wooden tray frame with an 8mm surround. The edges of the acrylic are completely visible giving the illusion that it is suspended within the frame. This is an ideal product for those wanting the contemporary benefits of the HD Acrylic but need it to sit within a framed environment.

- 5mm Crystal clear plexiglas
- Face mounted with the highest grade fine art adhesive
- Wooden tray frame in black or white
- Hi-definition 12 colour printing
- Certified for 100+ years
- Supplied in a white presentation box
- Bespoke sizes up to 2m in length
- Production time: 7-10 working days

## ALUMINIUM MOUNTED PRINT

Our Aluminium Mounted Print is a sleek contemporary wall piece that seems to subtly float off the wall. The photographic print is sealed with a matte or ultra gloss film and mounted directly to a solid 2mm aluminium sheet.

- 2mm Solid aluminium sheet
- Sealed with a matte or ultra gloss film
- Brushed edges for a cleaner finish
- Supplied with white wooden subframe (aluminium subframe optional)
- Hi-definition 12 colour printing
- Supplied in a white presentation box
- Bespoke sizes up to 3m in length
- Production time: 5-7 working days

## ORB PRO MOUNT

Our popular Orb now available as a lightweight Pro Mounted Print. Perfect for creating impact Gallery Walls affordably. The Orb Pro Mount is also ideal for childrens rooms and busy play areas as the lightweight product even at 20" is less than 600g, so perfectly safe. These like all our products are produced using archival pigment prints and then sealed with a matte film and mounted directly to a 5mm white or black PVC.

- 5mm white or black PVC board
- Sealed with a matte or ultra gloss film
- Supplied with white wooden subframe (aluminium subframe optional)
- Hi-definition 12 colour printing
- Bespoke sizes up to 3m in length
- Supplied in a white presentation box
- Production time: 5-7 working days

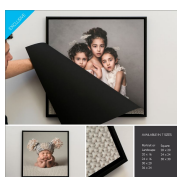

## THE AMAZING REVEAL FRAME™

Now only supplied with one print, but more can be added at any time. Our own creation, designed to help Photographers and Artists create impact and increase sales.

The Reveal Frame™ prints can be swapped out and changed over and over. It can also hold up to 2 images at a time layered on top of each other and you can simply peel the top layer and reveal the second hidden print. This is intended for impact during viewing sessions or to hide an image short term, rather than leaving it to hold both images all the time. For constant use, one image at a time is recommended.

Use it as a demo product! Wow customers during the viewing session, by unveiling their image on the final finished frame. They then purchase the permanent fixed version of the same product which is our Tray Framed Pro Mount.

Revamp your whole studio and go from Newborn Photography to Family Portraits in seconds. This will help you display the right images to the right type of customers. Prints are easy to order, store and reuse making the Reveal Frame™ perfect for entrance and window displays that need updating regularly.

- A glassless frame with interchangeable prints
- Sealed with a smooth matte finish
- Available in our shallow and deep tray frames
- Hi-definition 12 colour printing
- Production time: 10 working days for the frame (aditional prints 3-5 working days)
